In addition, the drug is widely used in radioactive iodine therapy. You can buy this drug in our online pharmacy at an affordable price. We guarantee the quality and originality of the medicine to the buyer!

All drugs are supplied to us by Indian manufacturers. Every drug is certified. The drug itself complies with all established standards. The buyer can be calm about the quality of the goods upon receipt also because we deliver the medicinal product in the storage conditions established for it.

Reviews of the medicine LENVIMA

The drug LENVIMA has passed all the necessary clinical trials, where the effectiveness of the drug was revealed. Also, our online pharmacy receives many positive reviews from customers for this drug. They report that the drug does indeed fight the disease.

LENVIMA

In our online pharmacy you can buy LENVIMA at an affordable price.

The package contains 20 capsules, and it contains lenvatinib, which is prescribed to fight thyroid cancer. Before use, a consultation with a doctor is required! The drug is prescribed by a specialist on an individual basis as an oral selective inhibitor.

Features of the use of the drug LENVIMA

It is recommended to take the tablets (in one 4mg tablet) once a day at the same time. Increasing the dosage without consulting your doctor is highly discouraged. It is also necessary to warn the doctor about other medications the patient is taking. After all, simultaneous courses of treatment sometimes may not be suitable for each other, as a result of which a decrease in the effectiveness of all is possible.

Side effects and contraindications of LENVIMA

The drug is contraindicated in children, women during pregnancy and lactation. It is also worth taking the drug with caution for those who have an individual intolerance to any of the components of the drug. Since LENVIMA affects the functioning of the kidneys and heart, you should not start a course of treatment for those who have disorders in the work of these organs.
