Basic information about the drug Osimert-80DescriptionOrder, delivery and payment «Osimert-80»?

Buy Osimert-80

Osimert tablets are designed to fight lung cancer. The medicine is used as a primary treatment or as part of a course of treatment for other types of cancer. The drug can be prescribed for the treatment of severe stages of the disease, in cases where chemotherapy or surgery did not bring the desired results. Osimert tablets from the Bangladeshi manufacturer Everest Pharmaceuticals Ltd. can be purchased inexpensively from an online pharmacy. Before use, you must seek the advice of your doctor or oncologist.

Osimert-80 price (Osimertinib)

A Bangladesh-based company Everest Pharmaceuticals Ltd. obtained the right to manufacture a drug containing osimertinib almost immediately after the invention of the substance. The substance, synthesized by the British-Swedish laboratory AstraZeneca, entered the market in 2017. The drug produced by Everest Pharmaceuticals Ltd is named Osimert, it is completely identical to the original drug - Tagrisso and contains the same amount of osimertinib as the original. In the Pharmacy, the price for Osimert is significantly lower, since the drug is supplied from the

manufacturer's warehouses.

Reviews about the drug Osimert-80

Studies of the drug have shown that the active agent of the drug, osimertinib, has an inhibitory effect on the third generation epidermal growth factor receptor tyrosine kinase receptors, reducing the growth of cancerous tumors. In addition, Osimert acts on the body's immune system, forcing it to actively fight the disease.

Description of the drug Osimert-80

One Osimert package contains 30 capsules. Oval, biconvex, dark yellow tablets contain 80 mg of osimertinib. The metabolic period in the body is 24-28 hours, the remains of the drug are excreted by the kidneys and intestines.

Indications and methods of application Osimert-80 (Osimertinib)

Osimert capsules are used as the main or additional agent in the treatment of oncological diseases. Depending on the diagnosis, the number of capsules containing osimertinib is prescribed by the treating oncologist.

Contraindications

The drug Osimert is not recommended for use in case of individual intolerance to osimertinib, in case of malfunctioning of the liver and kidneys, during pregnancy, breastfeeding, as well as in children under 18 years of age.

How to order Osimert-80?

The online pharmacy offers several options for ordering Osimert. You can fill out a form on the website, call a single number or write a message in Viber. Each option entails a call from the pharmacy manager, who will clarify the details of the purchase and give advice on issues related to the purchased medicine.

Delivery Osimert-80 (Osimertinib)

Osimert delivery is carried out by an individual courier of the Pharmacy or international courier service EMS or Russian post. It is better to specify the shipping cost and delivery time when ordering.
